

Quick and easy setup

- Place the chair on its side and insert one of the plugs into the bottom hole.
- Fill the chair with water from a garden hose using the top hole.
- When water reaches the top hole insert a plug to cap.
- Turn the chair to its normal position and place on your ledge.
- Lift the back up to make sure all the water is in the foot part of the chair.
- Sit. Relax. Enjoy!

***Designed for use on your tanning ledge in 6" -9" of water.
Not recommended for deeper ledges. Built for use on decks and beaches too.***

Care Instructions

- The Aqua Chair loungers are designed to be in the water of a maintained pool with acceptable chemical levels. They are built to withstand weather and resistant to the sun.
- Use a soft sponge or cloth with water when cleaning your chairs.
- For more stubborn dirt, remove from the pool and use a mild household cleaner.
- Empty and refill twice a year to keep the water inside clean & fresh.

Wipe down your loungers often to prevent calcium build up from your pool water.

That is it. Now it is time to relax on a new level.
